

## 911 Experience

We all have 911 experiences in our life,  
One day there is calmness, the next day strife.  
A catastrophe big or small comes our way,  
It usually isn't something we expected that day.  
Life was going along on a steady course,  
There was little regrets or remorse.  
Only God controls the floods, hurricanes  
and the 911's that change our direction,  
Even the day on the cross and Christ's resurrection.  
One day we'll stand before Him in the final hour,  
And see and feel the presence of His mighty power.  
We'll understand the plans, He had for us,  
Why our journey went from dust to dust.  
But for today, we are to live for the things that last,  
All things here on earth will soon pass.
