

The Sun Kissed The Earth Goodnight

And the sun kissed the earth goodnight,
What an inspiring and glorious sight.
From the darkness everywhere,
To the glorious rays of sunshine, here and there.
His light is the brightest light of all,
Needed winter, spring summer and fall.
The day can seem so bright,
But, be dark when Jesus is not in sight.
He's the One who lights our way,
Will guide and direct you as you pray.
He's in charge of the darkness of the night,
Could stop the sun from burning bright.
Keeps the clouds from opening to water the earth,
Without the cross there's no reason for Christ's birth.
Our hearts will stop by His beckon call,
He's made every part of us after all.
Why not let him guide your life?
He created joy and sorrow and even strife.
Knows your agony and pain,
He had His only Son die for your eternal gain.
Give Him your tears and sorrows,
You're everything, today's and tomorrow's.
